

Location: Exploiting the Benefits

A Conference That Will Focus on Surveying and Geographic Information

Tuesday 6th May 2008

Sponsorship Opportunities

The Malta Association for Geographic Information (MAGI), the Malta Institution of Surveyors (MIoS) and the Royal Institution of Chartered Surveyors – Malta (RICS Malta) are organising a conference that will focus on surveying and geographic information.

The conference will highlight the following themes:

- *The business value and benefits of location*
- *Location based decisions and strategic planning*
- *Location information in the public sector*
- *Security and public order*
- *Risk management*
- *Mapping, modelling and imagery*

Following the huge success of the INSPIRE Malta seminar last October, the associations recognise the need of events that bring together the local surveying & geo-community. Networking, knowledge-sharing and collaboration will help to engage and strengthen the surveying and GI industries in Malta.

“Location: Exploiting the Benefits” is the premier surveying and geographic information event organised by the Maltese geo-community for the local geo-community. The conference will attract all the major stakeholders of the local industry, providing you with a **unique opportunity to promote your profile to your target market**. The event organisers are offering exhibition, advertising and sponsorship opportunities at very attractive rates.

	Prices (including VAT)	Sponsorship Pack Details
